

INTRODUCTION

Music is an extremely versatile medium of communication. It can explore all the features that are used in verbal communication. Moreover, it does so in an explicit and structured way, which makes it an interesting and useful window into human communication, in general. Because of this there are many music stores across the city. And the competition for providing best of the music is growing very fast.

- A Menu should be created which would categorize all the information about the features provided in the Site For e.g. a Menu for Various categories of music, a Menu for releases in the current year etc.
- The categories of music can be
 1. Rock
 2. Jazz
 3. Pop
 4. Rap
 5. Classical
- These categories can be further divided into subcategories.
- On clicking on any of the category would be able to give all the related information as
- Artists details
 1. Personal details
 2. Career achievements
 3. Collection
- Various albums in the respective category.
 1. Album release details
 2. Artist
 3. Songs
- Instruments related to the category
- Events taking place in that category
- Site should also be displaying new releases, best of the year, collections from top composers.

- It should also display the reviews about various albums or artists under reviews section.
- User should be able to perform searches by
 1. Artist
 2. Album
 3. Release Date of album.
- There would be two types of users: registered and non-registered users.
- Registered users should be able to download the complete album whereas non-registered users should only be able to listen the album, but no downloading allowed for them.
- Site should also display the related articles.

CAREER ACHIEVEMENT

1. Grammy Award for Best Jazz Performance by a Group.

COLLECTION OF ALBUMS

1. Light as a Feather
2. Hymn of the Seventh Galaxy
3. Return to Forever
4. Hymn of the Seventh Gal
5. Roshni (1999)
6. The MotherShip Returns
7. The Definitive Collection

RETURN TO FOREVER ultimately came to be viewed as a chapter in the career of Chick COREA who was sometimes given sole credit on CD reissues of its albums. In its time, it rose and fell according to the popular and critical response to jazz fusion in general, gaining accolades and healthy sales early on, but suffering from the backlash that all progressive jazz endured after the 1970s, when musical trends turned conservative and the remnants of jazz-rock mutated into smooth contemporary jazz. Also, it has fallen between stools in terms of music criticism, with hidebound jazz critics dismissing it as too much like rock music, while rock critics think of it as a jazz group. As such, there is a tendency to undervalue the band's real musical accomplishments, which however, remain available to be heard on the records.
